DATA SHEET - STACKABLE CRANELIFT WASTE SKIP

Storage and handling equipment

Stackable cranelift waste skip

Stackable ecological sheet metal container

The versatility of our innovative stackable metal container offers the ideal solution for smart waste and scrap management on construction sites. Designed to simplify and optimize the storage process, this container effortlessly accommodates materials of various sizes, ensuring a tidy and organized environment on the site. With the ability to transform from stackable to nestable with a simple movement of the feet, our metal skip adapts to your needs, efficiently utilizing space. Equipped with 4 handy lifting hooks, the skip can be easily lifted and moved via chains or forked with the forks of a forklift or telescopic handler. This product is constructed and tested according to UNI EN ISO 12100, UNI EN 10027-1, and UNI EN 10204 standards and is issued with the appropriate metal ID plate and certificate of conformity. All our products are covered by a one-year warranty (European Directive).
