Hoist tilting bucket

Trapezoidal bucket with tilting on both sides

The tilting trapezoidal bucket is a robust and versatile product designed to facilitate the lifting and transport of materials on construction sites. This device is ideal for use with jib cranes or cranes with limited lifting capacity. Key features of this bucket include: Robustness and Reliability: The solid steel construction ensures durability and resistance to stress in demanding work environments. Dimensions: The compact size of the trapezoidal bucket makes it easy to handle loads with small capacities. All our buckets are built and tested according to UNI EN ISO 12100, UNI EN 13854, ISO 8686, UNI EN 10027, and UNI EN 10204 standards and come with a metal ID plate, a certificate of conformity, and a user and maintenance manual. All our products are covered by a one-year warranty (European Directive).
