## Fall arrest harness with 2 anchorage points - CE EN361

Ensure maximum safety in the workplace with our fall arrest harness equipped with 2 anchorage points, compliant with European CE EN361 standards. Designed to provide protection against the risk of falls, this harness offers a reliable solution for working at heights. The 2 anchorage points provide extra stability and allow for greater versatility in the use of the harness in various work situations. This product is mandatory when using personnel lifting baskets.
