DATA SHEET - PLASTIC CIRCULAR MUCK TIPPING SKIP

Self dumping bins

Plastic circular muck tipping skip

PVC container for aggregates and debris

The polyethylene container, with a capacity of 70 liters, is designed to facilitate the efficient transport, storage, and discharge of various types of materials. Its ease of handling and tilting make it an ideal accessory for use with jib cranes or cranes with limited lifting capacity. Additionally, its watertight seal ensures the protection of the contents during transport. The robust polyethylene construction gives the container remarkable resistance to impacts and abrasion, ensuring long-lasting durability. In conclusion, this 70-liter container offers an excellent balance of maneuverability, sturdiness, and versatility, making it a reliable choice for various material transport and storage needs. All our buckets are built and tested according to UNI EN ISO 12100, UNI EN 13854, ISO 8686, UNI EN 10027, and UNI EN 10204 standards. Each unit comes with a dedicated metal ID plate, a certificate of conformity, and a comprehensive user and maintenance manual to ensure optimal use. Additionally, all our products are covered by a one-year warranty in accordance with European directives, offering peace of mind and long-term satisfaction.
