Rescue stretcher

Folding stretcher in 4 parts for rescue operations

Explore the practicality and efficiency of our four-fold stretcher, an exceptionally comprehensive and versatile solution in the field of medical equipment. The structure, made of round anodized aluminum tubing, gives this stretcher an ideal combination of strength and lightness. The fixed handles ensure a secure grip during use, while the flame-retardant orange nylon cover adds an extra element of safety. Additionally designed for convenient storage inside the ambulance, this folding stretcher is the ideal choice among auxiliary emergency stretchers. Its dimensions (215 × 55 × 14 cm) make it suitable for a variety of situations, while its folding capability (104 × 18 × 10.5 cm) allows for practical storage when not in use. Weighing only 5.6 kg and with a maximum capacity of 159 kg, this stretcher offers the perfect combination of portability and strength. This product is mandatory when using emergency evacuation baskets.
