DATA SHEET - GALVANIZED GOODS CARRYING CAGE

Storage and handling equipment

Galvanized goods carrying cage

Galvanized goods carrying cage

Discover the versatility of our goods carrying cage, also available with practical wheels or a detachable bottom to meet your most specific needs. These containers offer intelligent solutions for the transport and handling of perforated items or tiles with the aid of a crane or hoist, ensuring practicality and flexibility. The version with wheels facilitates the manual movement of the containers within floors, improving the efficiency of transport operations. For greater adaptability, we also offer the version with a detachable bottom. This feature allows for easy removal of the container's bottom, speeding up loading and unloading operations. Choose the configuration that best suits your operational needs and simplify your work with practical and safe solutions. This product is built and tested according to UNI EN ISO 12100, UNI EN 10027-1, and UNI EN 10204 standards and is issued with the appropriate metal ID plate, certificate of conformity, and user and maintenance manual. All our products are covered by a one-year warranty (European Directive).
