DATA SHEET - PRECAST CONCRETE BLOCK GRAB

Lifting clamps

Precast concrete block grab

Clamp for handling concrete blocks

This clamp model represents the ideal choice for safe and efficient lifting of concrete blocks and similar structures. With a capacity of 3750 kg and versatile adjustment from 400 to 800 mm, this clamp delivers reliable performance in various working conditions. The addition of a forkable sleeve allows easy use with forklifts, ensuring greater flexibility on-site. Designed with high-quality materials and advanced technologies, our clamp ensures precise and safe lifting at all times, enhancing efficiency and safety in the workplace. All our clamps are built and tested in accordance with UNI EN 13155, UNI EN ISO 12100, UNI EN 13854, ISO 8686, UNI EN 10204 standards, and come with a metal ID plate, conformity certificate, and a user and maintenance manual. Furthermore, all our products are covered by a one-year warranty, in compliance with the European Directive.
