Galvanized gas bottle cage

Galvanized container for 1, 2, 4, and 6 technical gas cylinders

We present our complete line of cylinder storage containers, a versatile solution for the safe storage and transportation of technical gas cylinders. Available in various capacities, including options for 1, 2, 4, and 6 cylinders, these containers are designed to meet the specific needs of cylinder management in industrial settings.

Key Features:

- Versatility of Capacities:** Our range offers various options, allowing you to select the model most suitable for your specific storage needs, with capacities ranging from 1 to 6 cylinders and cylinders of different sizes.
- Sturdy Structure:** The containers are built with a robust structure to ensure strength and durability in everyday use, providing a reliable and secure solution.
- Galvanized Finish:** For additional corrosion protection, ideal for environments more exposed to atmospheric agents.

The container can be lifted either using a chain through the welded hook at the top or can be easily moved with the forks of a forklift truck by picking it up at the base. This product is built and tested according to UNI EN ISO 12100, UNI EN 10027-1, and UNI EN 10204 standards and is issued with the appropriate metal label and certificate of conformity. All our products are covered by a one-year warranty (European Directive).
