DATA SHEET - GRIPPER FOR CONCRETE TANKS AND SLABS

Lifting clamps

Gripper for concrete tanks and slabs

Mechanical clamp for manholes and concrete slabs

The PZV model is a mechanical clamp designed to facilitate the handling of manholes, extensions, or concrete slabs. The clamp is equipped with rubber pads to provide a stable and secure grip. It is intended for use in conjunction with a lifting device such as a crane or excavator and can be paired with a load balancer for lifting large artifacts. All our clamps are built and tested according to UNI EN 13155, UNI EN ISO 12100, UNI EN 13854, ISO 8686, and UNI EN 10204 standards and come with the appropriate label, certificate of conformity, and user and maintenance manual. All our products are covered by a one-year warranty (European Directive).
