Lifting clamps

Kerb grab

Kerb grab with handles

The PZC clamp proves to be a reliable ally in handling concrete curbs. Its versatility is highlighted by its ability to be used both manually, thanks to the side handles that allow practical and controlled handling, and with the assistance of a crane or excavator for heavier operations. The clamp is equipped with rectangular rubber pads to provide a stable and secure grip. With the PZC model, managing elements like curbs becomes an easy task, offering flexibility and ease of use in various work situations. All our clamps are built and tested according to UNI EN 13155, UNI EN ISO 12100, UNI EN 349, ISO 8686, and UNI EN 10204 standards and come with the appropriate label, certificate of conformity, and user and maintenance manual. All our products are covered by a one-year warranty (European Directive).
