DATA SHEET - HEAVY DUTY CONICAL CONCRETE BUCKET WITH CENTRAL DISCHARGE AND GEARED OPENING

Concrete buckets

Heavy duty conical concrete bucket with central discharge and geared opening

Conical concrete bucket with central discharge and double wheel opening

The C-V concrete bucket model is characterized by manual opening with a double wheel, ensuring precise control during concrete discharge. This model offers flexibility in terms of lifting, with the option to choose between 3 lifting hooks or a lifting arm, adapting to the specific needs of your construction site. The C-V bucket is available in various sizes and capacities, as indicated in the table below, and we offer the possibility of making customized modifications to meet your most particular requirements. All our buckets are built and tested according to the standards of UNI EN ISO 12100, UNI EN 13854, ISO 8686, UNI EN 10027, and UNI EN 10204, ensuring the highest quality and safety. Each product is accompanied by a metal label, certificate of conformity, and user and maintenance manual. Our commitment to quality is also reflected in the one-year warranty coverage, in compliance with the European Directive. Choose our C-V concrete bucket for a reliable and durable solution on your construction site.
