

DATA SHEET - MANHOLE RING CLAMP

Code	Capacity (kg)	Weight (kg)	Adjustment (mm)
PZP-0	120	3	10-50
PZP-1	600	8	10-90
PZP-2	1200	14	90-140
PZP-3	2000	21	140-210

DATA SHEET - MANHOLE RING CLAMP

Lifting clamps

Manhole ring clamp

Clamp for concrete tanks and manholes

The PZP lifting clamps are designed for handling concrete tanks, manholes, and round profiles, providing an ideal solution for secure, fast, and efficient gripping. Featuring robust construction and modern technologies, these clamps are engineered to ensure reliable and completely safe lifting. It is recommended to use them in pairs or triple configuration with appropriately sized chain slings. Key Features: Robust Construction: Made from high-quality materials, the clamps offer a sturdy structure to handle daily challenges of lifting heavy loads. Safe and Easy Handling: Designed to ensure maximum safety during lifting operations, the clamps provide intuitive and manageable use, aided by practical handles. Versatility: Ideal for gripping concrete tanks and manholes, these clamps offer versatile adjustment to meet specific lifting needs in different contexts. Lightweight: Despite their robustness, the clamps are designed to be lightweight, facilitating handling and reducing effort required during operations. Time Efficiency: Put an end to time losses on-site with a design that enables lifting operations to be carried out quickly and efficiently. CE Compliance: The clamps are tested and CE compliant, ensuring conformity with European safety standards.
