Lifting clamps

Kerb grab

Pantograph kreb grab

The pantograph curb laying clamp represents an innovative solution for the precise placement of curbs in construction, using suitable lifting machinery. Equipped with a pantograph system and 4 rubber pads, it provides a secure grip and precise laying for various sizes and shapes of curbs. With automatic release, ease of use, and robustness, it optimizes the laying process, ensuring accuracy and versatility on site. All our clamps are built and tested according to UNI EN 13155, UNI EN ISO 12100, UNI EN 13854, ISO 8686, and UNI EN 10204 standards and come with the appropriate label, certificate of conformity, and user and maintenance manual. All our products are covered by a one-year warranty (European Directive).
