Antistatic UV stabilized PLT tank with metal cage

Discover our high-quality plastic tank, designed to ensure safety and versatility in the transport and storage of liquids. With a capacity of 1000 liters and made from durable high-density polyethylene (HDPE), this tank offers a reliable solution for a wide range of substances, including water, gasoline, wine, oil, and chemicals. The tank features an innovative design with a neutral color, a 150 mm top lid, and a 2" butterfly drain valve, providing easy access and versatility in use. The metal/plastic pallet ensures structural robustness, while the dimensions of 1000 L x 1200 W x 1152 H mm allow for efficient space management. Ideal for industrial and food applications, this tank is equipped with a provision for a warranty seal on the lid, ensuring the integrity of the contents during transport. The tank complies with food contact standards, offering safety in storing liquids intended for human consumption. However, it is important to note that this 1000-liter tank is not ADR/UN approved for the transport of dangerous goods. This product is constructed and tested according to UNI EN ISO 12100, UNI EN 10027-1, and UNI EN 10204 standards and comes with the appropriate metal ID plate and conformity certificate. All our products are covered by a one-year warranty (European Directive).
