Concrete buckets

Concrete skip washing platform

Washing platform for concrete buckets

The **Boscaro Washing Platform (PL)** is the ideal solution for washing out concrete buckets directly on construction sites.

Its elevated and angled design makes washing easier, safer, and faster for operators using a hose or jet-washer.

This platform is equipped with:

- Access ladder and safety handrail for secure operation.
- Lashing points and non-slip surface for maximum stability.
- MPL collection tray to contain wash water and concrete residues, keeping the site clean and eco-friendly.

The PL model is easy to assemble and disassemble for transport and storage. For long-term durability, it can be hot-dip galvanized to protect against corrosion, making it ideal for heavy-duty use in all weather conditions.

Why Choose the Boscaro Washing Platform?

- Improves **safety** for construction site workers during washing out operations.
- Prevents **concrete build-up** on buckets, extending their lifespan.
- Keeps the **work area clean** and compliant with environmental regulations.
- Durable, reliable, and built for intensive use.

Certified Quality

All Boscaro products are tested and certified to meet UNI EN ISO 12100, UNI EN 13854, ISO 8686, UNI EN 10027, and UNI EN 10204 standards. Each unit includes a metal ID plate, certificate of conformity, and a user & maintenance manual.

Backed by a 1-year warranty in compliance with European Directives.
