DATA SHEET - ADJUSTABLE GRIPPER FOR 2 ROWS OF ROOF TILES

Lifting clamps

Adjustable gripper for 2 rows of roof tiles

Tile clamps for one, two, and three rows

The tile clamp is a lifting device specifically designed for the efficient and safe handling of tiles. This clamp features special gripping mechanisms that allow it to grasp and lift rows of tiles without causing damage. These clamps have contact surfaces coated with soft material and can be provided with safety nets upon request for safe handling at heights. All our clamps are built and tested according to UNI EN 13155, UNI EN ISO 12100, UNI EN 13854, ISO 8686, and UNI EN 10204 standards and come with the appropriate label, certificate of conformity, and user and maintenance manual. All our products are covered by a one-year warranty (European Directive).
