Lifting clamps

Manhole ring lifter

Clamp for concrete pits and rings

The PZB lifting clamps are designed for handling concrete manholes, biological pits, and round profiles in cement. Characterized by robust construction and modern technologies, these clamps provide a safe, efficient, and versatile solution for lifting operations. They are recommended for use in pairs (PZB-2) or triple (PZB-3) configuration with appropriate chain slings. Key features include a sturdy structure, ease of use with integrated handles, versatility in gripping various concrete elements, lightweight for easy handling, time efficiency due to optimized design, and CE compliance ensuring safety and reliability. All our clamps are built and tested according to UNI EN 13155, UNI EN ISO 12100, UNI EN 13854, ISO 8686, and UNI EN 10204 standards, and are issued with the appropriate label, certificate of conformity, and user manual. All our products are covered by a one-year warranty (European Directive).
